

MEETING YOUR DARK ATTRACTION AWAKENING TO YOUR DIVINE NATURE

An Exploration of Fantasies, Sex and Love with Dr. Kristina Kincaid

Scuba Divers do an in depth exploration, Rock Climbers do it against the wall, Rockstars do it loud and Politicians do it to everyone. What exactly is this thing we do called sex and why are so obsessed with it? What makes it so pleasurable, titillating, frightening and shameful? Most of us think the other is satisfied, while we feel frustrated in our own desire and longing.

The primary processes of sexuality are energetic patterns created in our childhood, which are then mediated through the body. Most of us are not even aware of these energetic habits, such as the difference between being separate or merged or even our own preferences and those of our partners. Unencumbered from such habits, sex can become fresh, alive and open, an art form, a physical prayer, naked, unafraid and raw. Beyond self union, lies a greater union, a total orgasm with the whole, with Source itself.

This day long journey will be an exploration of how we can gain a conscious choosing over what and how our sexual energy moves in you. From pleasure to sharing, to heightening the spiritual embodiment of your sexuality, we will be in conscious exploration and discovery of these energies in you and how they affect your relationships. The Awakened Sexuality Project is for participants who are longing for a deep spiritual journey and a strong willingness to venture and play where angels fear to tread. We will be working in the deep unconscious, uncovering where we turn away from some of our greatest gifts by delving into what has been deemed unspeakable and taboo. Through exploration of sexual fantasies, sexual constellation work, untamed passions, conscious play, body work, breath work, movement, intimacy, connection and respectful service to each other, we can come home to ourselves through a deep honoring of our gorgeous, unique and individual ways of loving.
